Africa doesn't need Western approval to be 'Africa'

17 march 2009

Paul Kagame,

I watched you on BBC's Hardtalk...

Mainly you said:

- ICC does whatever it wants to do; they are selective in their cases, its NO court of law. No fairness.
- NL & Sweden blackmail Rwanda & Africa with investments
= when we obey them we get money, otherwise not
- The West believes 'that Africa needs the West to be Africa', but we don't .

THANK YOU SO MUCH.....

You should have added:

'In Africa we know that ICC hides a lawcase against NL. for almost 2 years ... and that the media hides this truth for the rest of the World too'....

This would have given you sóóóó much power over Europe & UN.

Have a straightforward day,
